## PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science graduate (2025) specializing in Full Stack Developer with hands-on experience in building Web and Mobile application with Angular, Ionic, Node.js, and PostgreSQL. Passionate about creating intuitive user interface and writing clean, scalable code. Eager to contribute to a dynamic development team and apply my skills in a professional setting.

## EDUCATION

### Bachelor of Science in Computer Science

National College, Tiruchirappalli

2022 – 2025

## TECHNICAL SKILLS

**Frontend:** HTML5, CSS3, SCSS, Tailwind CSS, TypeScript, Angular, Ionic

**Backend & Database:** Node.js, Express.js, PostgreSQL, Sequelize ORM

**Tools & Platforms:** GitHub Desktop, PG Admin, Postman API

**UI/UX & Design:** Figma (Web & Mobile UI), Canva, Responsive Design, Cross-Browser Compatibility

**Hosting:** Vercel, Render

**Other:** Python (core syntax, loops, conditionals, REST APIs), DSA in JavaScript, RESTful API design

## PROJECTS

### 1. Gentle Luxe — E-Commerce Web App

- Built a minimalist, fully responsive online store for luxury clothing with a focus on a clean UI/UX using Angular and Tailwind CSS
- Implemented core e-commerce functionalities including product display pages, a dynamic shopping cart, and a multi-step checkout process.
- Ensured cross-browser compatibility and optimized front-end performance for a fast and fluid experience.
- Developed the frontend architecture to be scalable for future feature additions like user accounts and order history

### 2. OnlyTurf — Turf Booking Platform

- Developed a cross-platform turf booking mobile app using Ionic and Angular, powered by a backend Node.js and Express.js backend.
- Deployed the PostgreSQL database and backend services on Render, ensuring continuous availability and scalability.
- Designed and built a secure RESTful API to handle user authentication, real-time booking management, and data retrieval (with socket.io and jwt)
- Implemented a full feature set including a user-facing booking interface, turf-owner management dashboard, and an integrated Google Maps API for Location.

### 3. Skilld — Online Learning Platform (In Design Phase)

- Designed comprehensive UI mockups and prototypes for collaborative education platform using Figma
- Outlined the user flow for student and instructor dashboards, course creation, and enrollment processes.
- Focused on creating an intuitive and accessible interface to foster an engaging online learning environment
